

REFERENCE CHART

NOTE: All of Genelyn North America Arterial and Cavity Products are Non Flammable and contain no Gluteraldehyde, Dichlorobenzene, or added Methanol for your health and safety.

GENELYN PRODUCTS	CHEMICAL USE	DODGE PRODUCTS	ESCO PRODUCTS	FRIGID PRODUCTS	ECKELS PRODUCTS	PIERCE PRODUCTS
Arterial Ultra (all Colours) Arterial Difficult (Both 35 Gendx) Arterial Taltex FM (30 Gendx)	Extremely powerful fast acting, maximum preservation and penetration	Introfiant/Regal (Both 30 Index)	Lithol/Instant/Compo Hard	36 Plus/Tissue Guard (Both 32 Index)	Dyno Supreme (30 Index) Dyno Ultra (34 Index)	Fastex
Arterial Enhanced (30 Gendx) Arterial FM Series	Strong Strength High index for challenging cases requiring stronger than average chemicals	Introfiant/Regal (Both 30 Index) Metasyn or Metasyn Accelerated	Epic/Instant	Flo Tone	NuOxin 24/Tan	Cosmaflo
Arterial LE 28 Samurai Arterial Enhanced (30 Gendx) Arterial Ultra Red,Tan and Natural (35 Gendx)	High Strength maximum protection against dehydration with optimal colour	Metasyn or Metasyn Accelerated	Epic/Instant/Lithol, Lithol C/R	Natural Tone	NuOxin 24/Tan	Triton/NXT
Arterial High (25 Gendx)	Medium Strength chemical with long term preservation qualities, soft colouring	Permaglo, Plasdo-25, Humeglo	Epic/Leaf	Natural Tone	NuOxin 24	Cosmaflo
Arterial Medium (23 Gendx) Arterial Normal (20 Gendx) Arterial Lanolin Enhanced (20 Gendx)	Lower index chemicals leaving deep penetration while allowing Tissue to remain resilient and natural	Chromatech (all colours) Pladopake, Metsyn Normal	Circol/Leaf/Ming	Natural Tone	NuOxin 20	Cosmaflo
Arterial Difficult (35 Gendx) Arterial Difficult Additive	Effective against Tissue Gas, Crepitation, Decomposition, Kills anaerobic activity	Halt	San Vieno	Stop	Arrest	Chloro-San
Dryout	Effective in reducing Edema in tissue (water retention)	Edemeco	Edemo Pro	Leak Guard	Veloxin for Edema	Edema Eliminator
Arterial Difficult (35 Gendx) Arterial Difficult Additive	Effective against discolourations Bruising, Postmortem stain, jaundice	Jaudofiant (US Only) Metasyn or Metasyn Accelerated	N/A	Premium Jaundice	Veloxin for Jaundice	Jaundobalm

REFERENCE CHART

NOTE: All of Genelynn North America Arterial and Cavity Products are Non Flammable and contain no Gluteraldehyde, Dichlorobenzene, or added Methanol for your health and safety.

GENELYNN PRODUCTS	CHEMICAL USE	DODGE PRODUCTS	ESCO PRODUCTS	FRIGID PRODUCTS	ECKELS PRODUCTS	PIERCE PRODUCTS
Cavity Fifty + (50 Gendx)	Maximum preservation and penetration expected in a cavity with drying/firming of Viserca	PermaCav 50 (US Only)	Polar	Cavity 55 (8 Index) Pharos (36 Index)	Penetone	VX Cavity
Cavity Alpha (25 Gendx)	Maximum drying capabilities with little odour High disinfecting properties	DriCav (21 Index)	Polar/Cavrex	Cavity King/ Cavicide	NuOxin Cavity	N/A
Cavity Twenty Four (24 Gendx)	Strong cavity reducing odour, strong penetrating capabilities	DriCav/ Syncav/ Metafix	N/A	N/A	Veloxin/ Dyno	N/A
Cavity Alpha (25 Gendx)	Maximum Drying capabilities with little odour Effective against Tissue Gas, Alpha Toxins, and discolourations	Halt Cavity	N/A	N/A	N/A	N/A
Cavity Alpha (25 Gendx)	Used Externally for drying and Bleaching	Permafix/ Spectrum	N/A	Dry Guard	NuOxin Cavity	Petricel
Pre/Co Injection	Anticoagulant to clear and condition circulatory system for optimal drainage and penetration of Arterial Chemicals	ProFlow/ Metaflow/V2	Comp Pre-Injection	Plasma Flo/Clot Guard	Dyno Tone/Gold	One Point/Precursor
Chelator	Water Chelant used to remove unwanted trace metals and chemicals for both water and remains, adjusts PH	Rectifiant	Sofner	Water/Clot Guard	Nutralize	N/A
Sanigel	Gel preservation for surface embalming, Autopsy use, decubitus Ulcer treatment	Syngel	CADISOL GEL	N/A	Ecko Gel	N/A
Interfiber 30% Paraformaldehyde	Strong preservative, disinfecting and drying powders used for Autopsied remains	Viscerock (less than 10% Paraformaldehyde)	Quad	Autopsy Compound	Super Sorb	Hardening Compound

PRESERVING**

GENELYN PRODUCTS	CHEMICAL USE	DODGE PRODUCTS	ESCO PRODUCTS	FRIGID PRODUCTS	ECKELS PRODUCTS	PIERCE PRODUCTS
MorSpray Pretrichor 100% NON TOXIC	Deodorizes and disinfects remains and work area (note each product has a specific contact time and must be adhered to to be effective)	DisSpray (10 Min Contact)	IT	Orfice Guard	Sanifectant	Sani Spray
Moisturiser Plus Humectant	Aided Rehydration of Emaciated/Dry tissues Rapid absorption rate by proteins.	Restorative	Epic Conditioner	Humactant	Trioxin for Restoration	Restorative
MorSeal	Incision Powder	QS Powder	N/A	Stay Seal	Dry Seal	Safe
Tissue Enhancer and Solvent	Hypo injection material to rebuild sunken facial tissue	Feature builder	Tissue Filler	Tissue Builder	Tissue Builder	N/A
Embalmer's Putty	Mastic compound used to rebuild mouth area, enucleated eyes, gunshot holes, and general restorative work	Inr Seal	N/A	N/A	Smile	N/A
Elite Dry Pac 60% Paraformaldehyde	Ultimate in preservation powders used on Decomposition, water deaths, infectious cases	Action Powder (less than 50% Paraformaldehyde)	N/A	Paulex Powder	Chekit	Safe+
